Substitute the following for the rules in this Section :

- (1) The examination should be conducted, on the dates, and according to programme prescribed by the Auditor General, by the Head of the Audit Office himself, or by one of his assistants (not ordinarily below the rank
 - (3) The sealed packet containing the sealed envelopes in which the question papers are enclosed, should, on receipt be opened by the head of the office in the presence of the officer who is to preside at the examination or if he himself is to preside, in the presence of some other officer. The number of question papers in each envelope is given on the envelope itself. The number given on the envelope should be compared with the number of candidates appearing in each paper to verify that a sufficient number of question papers has been received.

After this comparison has been made the envelopes should again be placed in a cover which should be sealed. This cover should be kept⁷ in the personal custody of the head of the office, and must not be opened until the examination begins (but see rule 15 below) the several envelopes being opened when the papers are required for distribution. The outer cover and the envelopes should be opened in the presence of the candidates

- (4) The several papers should be given out singly and the exercises should be worked out by the candidate in the presence of the presiding officer.
- (5) The presiding officer should be relieved of all his ordinary duties during the period of the examination partly that he may be free from distraction, but mainly so that there should be no occasion for him to leave the examination room, or for outsiders to enter the room. Such work as the presiding officer must do during these few days, should be done outside the examination hours.
- (6) The number only of the question should be prefixed to an answer and the answers and solutions should be written in full. The answers should be worked out on the printed and bound answer books supplied to the Heads of Offices for the use of candidates. The instructions printed on the title page of the answer book and on the fly-leaf attached thereto for note of the Roll number and other particulars of the examination should be strictly observed by the candidates. The presiding officer should impress on the candidates that failure to comply with those instructions may entail forfeiture of marks. No loose paper should be supplied to candidates unless the supply of answer bloks gives out. In such a case, a special report should be sent to the Auditor General giving details of loose sheets supplied to each candidate
- (7) Rough work should be done by candidates on the left-hand pages of the printed answer books. The neatness of the candidate's paper is taken into account in assigning marks
- (8) No pages of the answer books should on any account be removed by the candidates.

- (9) No candidate should be allowed to take away any answer book from the examination room. It should be specially seen that all the answer books supplied to candidates are returned whether used or unused.
- (10) Apart from the staff necessary to hand out question papers and blank answer books, to supply drinking water and similar requirements of the examinees, no person should be allowed in the examination room. After distribution of the question papers no member of the staff should have access to the candidates. No outsider should enter the room unless absolutely necessary and the invigilator should not leave the room unless another senior officer replaces him temporarily.
- (11) The presiding officer should not allow any copy of the question papers to be taken out of the examination room until all the answer books have been collected.
- (12) Each supervising officer should forward to the Auditor General at the end of each part of the examination a plan of the examination room showing the arrangement of seats of the various candidates, together with a certificate stating whether the arrangement shown therein was maintained throughout the examination
- (13) The candidates' solutions as first written out fair, must be surrendered to the presiding officer within the time allowed for each paper
- (14) The solution papers should be transmitted, without alteration or correction, immediately after the close of each day's examination, by sealed packet, to be registered if sent through the post, and addressed to the Assistant Auditor General (Personnel) by name. The presiding officer should be required to affix his private seal to the packets of answer papers despatched to Assistant Au itor General (Personnel), a specimen of which should be sent to that officer beforehand
 - 1 This rule does not apply to the papers set and marked by the Accountant General locally under paragraph 4 (d) of Section IV of this Appendix.
- (15) The names of books the use of which is permitted for each practical paper should be mentioned in the question paper itself by the officer who sets the paper, and other books shall be prohibited from use at that particular examination. The names of books to be allowed for each paper are noted on the covers containing question papers. At the close of each day's examination, names of books for the next day's examination should be announced by the presiding officer so that the number of books to be brought into the examination hall by the candidates may be kept as low as possible.
- (16) The presiding officer should satisfy himself that in the papers where the use of books is permissible, the candidates do not receive extraneous help from notes or solutions copied in the books. Notes of the nature of cross references, glossary or index of references to orders of the Government of India may be permitted, but notes of the nature of solutions to questions should not be permitted. The use of tables, ready reckoners, etc. should not be permitted without the specific orders of the Auditor General. As far as possible, corrected up-to-date office copies of books should be supplied to candidates for the practical examination by the offices concerned. If a candidate uses his own set of books, they should be examined to verify that they do not contain any forbidden matter.

The Government of India will not, however, issue final orders before the 1st of March. It will be necessary for the Provincial Governments to report to the Government of India, not later than the 31st March, whether or not the applications already made require any alterations in view of subsequent developments in connection with such matters as the progress of the voting of demands and the course of taxation bills in the Provincial Legislative Councils. ANNEXURE I.

(G I, F D, Resolution No D 1250 F, dated the 25th March 1925, regarding the introduction of the Provincial Loans Fund)

The Government of India have had under consideration the question of systematising the arrangements for administering the advances made by the Central to Provincial Governments. After consultation with the latter it has been decided to establish a Central Fund, out of which all advances granted by the Government of India to Provincial Governments will in future be made, and to standardise for all Provinces alike the terms on which advances granted for various purposes will be repaid to the Fund

- 2 The Fund shall be constituted as from the 1st April 1925 and shall be called the "Provincial Loans Fund" Rules governing the administration of this Fund will be promulgated by the Government of India
- 3 All outstanding capital habilities of Provincial Governments to the Government of India will be transferred to the Fund at the time of its constitution and this capital will be increased from time to time as required by further advances from the Government of India.
- 4 The rate of interest charged by the Government of India on advances to the Fund which represent capital habilities transferred to it in accordance with paragraph 3, will be the same as the rates at which interest would have been paid to the Government of India by the Provincial Governments but for the constitution of the Fund The rate charged on further advances to the fund will, however, be determined on the basis of the cost of new borrowings to the Government of India from time to time
- 5 If at any time there is a surplus in the capital of the Fund not required or not likely to be required at an early date for the purpose of new advances, the Fund shall be entitled to apply such surplus towards the reduction of advances previously made to it by the Government of India under such conditions as may be determined by the Government of India according to the circumstances of the case
- 6 The terms already arranged between the Government of India and the Provinces in regard to any advances sanctioned prior to the constitution of the Fund will not be modified or affected in any way. The Fund will simply take the place of the Government of India as one of the parties to these contracts vis-a-vis the Provinces concerned.
- 7 The amount and the purpose of every advance which may be made by the Fund to a Provincial Government will be determined, as at present, by the Government of India in the Finance Department, and the Assembly will be asked to vote the necessary supply under the head "Advances to the Provincial Loans Fund". The receipts into, and disbursements from, the Fund will be recorded in the public accounts under a distinct head "Provincial Loans Fund".
- 8 Advances of less than Rs 5 lakhs for any scheme or group of works will not normally be made from the Fund, as being excluded by the principle

laid down in Rule 2 (a) of the Local Government (Borrowing) Rules, which requires that the proposed expenditure shall be so large that it cannot reasonably be met from current revenues. The rules governing the grouping of individual works for the purpose of this paragraph shall be the same as the rules which govern the grouping of works in order to determine the authority which is competent to sanction the total expenditure

The limit of Rs 5 lakhs, however, will not apply to capital expenditure (a) on productive works of (b) in a commercial department which is working at such a profit as to fulfil the test of productivity imposed by the Sceretary of State or (c) on commercial undertakings, whose accounts are maintained on a commercial basis

- 9 No advances will be made out of the Fund to any Provincial Governments which do not provide annually out of their ordinary revenues sums sufficient to redeem within a period not exceeding 80 years from the date when they were originally borrowed any loans or advances which they may from time to time obtain or have obtained from any source other than the Fund. This condition, however, will not apply to the pre-Reform irrigation debt referred to in paragraph 12
- 10 The standard rate of interest charged by the Fund on new advances will be so calculated, after taking into account the repayments due to the Fund on already existing advances, as to maintain the solvency of the Fund
- 11 The standard rate of interest will be charged by the Fund to the Provinces on all advances required for capital expenditure which can be classed as productive under the rules on the subject approved by the Secretary of State and for making advances to cultivators and to co-operative societies and loans to local bodies. For all other advances, the rate will be \(\frac{1}{4}\) per cent above the standard rate
- 12 All new advances made from the Fund and also all advances outstanding at present other than the debt relating to irrigation works constructed before the Reforms, the liability for which was transferred to Provincial Governments under the Reforms Scheme, will be subject to eventual repayment. It will be for the Government of India in the Finance Department to determine whether in any particular case repayment shall be by equated instalments of principal and interest or otherwise, and whether due instalments may be postponed or other exceptional arrangements made without threatening the solveney of the Fund.
- 13 The Government of India in the Finance Department will maintain a schedule specifying the term of years appropriate to the repayment of advances required for various purposes and will communicate to all the Provinces any additions to or modifications of that schedule at the time when they are made (See Annexure II below)
- 14 In the event of its being necessary to write off any part of an advance as irrecoverable, the loss shall not fall on the Fund but shall be made the oceasion of a special Demand Grant to be submitted to the Assembly

No. 6-A

- 15 The Government of India retain full power to refuse or suspend advances to the Fund and to modify the constitution of the Fund in any way, if the financial position of India makes it imperative that this should be done
- 16 The existing rights of the Provinces to borrow otherwise than in the form of advances from the Government of India will not be impaired

ANNEXURE II

(Schedule specified in paragraph 13 of the Resolution)

Maximum number of years within which advances from the Fund should be repaid

Advances required (1) for Capital expenditure which can be classified as productive and (2) for making advances to cultivators and to			
co-operative societies and loans to local bodies .	80		
Advances for all other purposes	50

(110-A) The debit under this head in the accounts of a particular year is to be limited to the discount actually accrued during that year. This is effected in the manner indicated below. On the issue of a treasury bill whether to the public or to the Paper Currency Reserve, the entire amount of discount should be charged in the first instance to this head. At the end of the year this head should be relieved of that portion of the discount on treasury bills outstanding on the 31st March which has not yet accrued, by credit to this head and debit to a separate detailed head "Discount on treasury bills" subordinate to the local ledger head "Sus pense Account". The discount carned during the year on treasury bills issued to the Paper Currency Reserve which remain outstanding on the 31st March is credited to the head "XXVII—Currency—Profits on note circulation" by debit to a detailed head "Adjustment in respect of treasury bills issued to the Paper Currency Reserve" subordinate to the local ledger head "Suspense Account." On the maturity of the treasury bill in the following year, the discount carned is credited to (i) the head "XXVII—Currency—Profits on note circulation" to the extent of discount carned in that year and (ii) the rest of the discount is credited to the head "Snspense Account—Adjustment in respect of treasury bills issued to the Paper Currency Reserve" mentioned above, thus clearing the debit ontstanding number that head

The adjustments in respect of treasury bills issued to the Taper Currency Reserve are intimated by the Controller of the Currency The adjustments of part discount in respect of treasury bills issued to the public which are outstanding on the 31st March are made by Account Officers in consultation with the Controller of the Currency The part discount accrued or carned on treasury bills issued to the public outstanding on the 31st March is calculated at the average rate of discount for the month of issue of the bills, which is communicated by the Controller of the Currency The discount accrued or carned during a particular year is calculated for half a month cach in respect of the month of issue and maturity, irrespective of the day of issue or repayment Thus a six months' bill issued in December will earn discount for 3½ months in the year of issue and for 2½ months in the year of maturity

Third loan, Sieca Rs 1,00 00,000 in 1825, and Fifth lean Sieca Rs 62,40 000 in 1829, both at 5 per cent. Government Rs 38,40,000 of the last was replied in 1853. The interest is payable in the form of hereditary pensions. Those under the fifth loan may be commuted for a principal payment.

(225) The capital of this loan was appropriated out of the confiscated property of Madho Rao's father who was a rebel of 1857. Part of it having been spent on the purchase of a landed estate, the interest on the balance is drawn by the Imperial Bank of India as Madho Rao's Agent

(226) In the local Accounts, inner columns will be used to distinguish the separate funds concerned.

(227) With effect from 1923 24 the balances of the Fund have been split up into two parts are (1) the ordinary balance held against the pension liability which is essentially sterling in character is to be treated as the sterling branch and (2) the balance of passage money insurance fund, which is a rupec highlity, is to be treated as the rupec branch. The balances of the sterling branch are held entirely in Eucland while those of the rupec branch are held in India, and the interest on the latter balances only is calculated in India and charged to "20—Interest on other Obligations".

The heads marked T are transactions in the Treasury accounts under " Bronze (and Copper) Comage Account"

The other heads, except the balances, come in by transfer in making up the account at the end of the year

- (a) Cost of copper, tin, zinc, etc., purchased for Bronze coinage is charged to this head
- (b) Credit receipts to this head
- (c) When copper, etc, is thus transferred, the Mint Master should debit " Loss on Coinage" by credit to this head
 - (d) This transfer should be made monthly by the Mint Master in his monthly account
- (e) The closing balance of copper, etc., in stock being first ascertained, the difference required to produce this as the balance of Account No 1 should be transferred in closing the account at the end of the year to Account No 3 on the books of the Accountant General, Central Revenues, and to credit of A G, C R on the Bombay books
 - (f) The Mint Master should credit this by debit to "Mint Remittances" or to "Foreign Remittances".
- (g) The Government is entitled to bring to account each year, as profit realised, only that portion which belongs to the amount of coin issued for circulation that is passed out of Mint and depôts combined

The sum of the gross profits brought forward from last year, and the gross mintage profit of the year, must therefore be distributed as follows -

Let A be the amount of coin in the Mint and depots on April 1st,

B be the new coin added to the joint stock during the year,

C be the net issues to the treasuries,

D=A+B-C is the balance in Mint and deputs upon March 31st

Then, out of the whole sum of the gross profit, $\frac{C}{A+B}$ is the pertion to be taken as realised and transferred to Account No 4

A+B is the portion to be carried forward as belance to next year

- (h) This represents the difference between the nominal value and metal value of uncurrent coins destroyed at the Mints
 - (1) This, the final result, is earried to the service head, whether it be on the whole a gain or a loss

Note 1 -No leave salary is payable on this certificate

NOTE 2 -This certificate must be produced before the High Commissioner with any application for an extension of leave or permission to return to duty or the grant of a last pay certificate

- Memorandum explaining how the existing orders in the several articles in the Civil Service Regulations have been dealt with in the instructions issued by the Auditor General under Fundamental Rule 74
- 1 Paragraph 1 This includes the provisions contained at present in clauses (a) and (d) of Article 841 of the Civil Service Regulations Under the existing system of audit it is necessary that the Audit Officer should certify the admissibility of the leave before it is sanctioned. The provision has, therefore, been retained as an instruction of the Auditor General
- 2 Paragraph 2 This order is not based on any rule at present included in the Civil Account Code or the Civil Service Regulations A similar rule is, however, included in some departmental codes (e.g., paragraph 109, Tublic Works Department Code), and is followed in practice in all civil offices Only leave which is admissible can be sanctioned and the admissibility of the leave can be verified only by a reference to the leave account. It is considered that an explicit rule to this effect should be contained in the authorised instructions
- 3 Paragraph 3 This provides for the orders in the note under Rule 1 below clause (1) of Article 314, Civil Service Regulations
- 4 Paragraph 4, clause (a) The provision in this clause is intended to replace the orders contained in Articles 855-A and 856, Civil Service Regulations The orders as they stand are very complicated and prescribe different sets of procedure for different kinds of officers. It would be sufficient if all the applications are required to be sent to the Civil Audit Oh.cer who will, when necessary, consult the Military Audit Officers Clause (b) provides for the orders contained at present in Articles 856 (c), 860, the Note under 871 and 875 As the Civil Audit Officer has to consult the Military Controller he can obtain the certificate at the same time
- 5 Paragraph 5 This reproduces the portion of the orders in Article 780 Civil Service Regulations, which is essential for purposes of audit
- 6 Paragraph 6 Article 865 prescribes the locality in which the leavesalary of a non-gazetted Government servant should be drawn and the conditions which should be observed before it can be paid. Orders regarding locality cannot be issued as part of audit requirements and so paragraph 6 only prescribes the other conditions contained in Article 865 The general orders framed by the Governor General in Council under rule 16 of the Devolution Rules include a provision to the effect that the leave-salary of a nongazetted Government servant paid in India should be drawn only in that district in which his pay could be drawn if he were on duty
- 7 Paragraph 7. This reproduces that portion of the orders in Aiticle 874 which relates to payment of leave-salary in India The term "office of payment" has been substituted for "treasury" so that the rule may be applied even in the case of those departments which make their own payments, eg, by cheques
- This reproduces the orders in Article 878, except that 8. Paragraph 8 the provision that a certificate is necessary only when the Government servant proceeds from one place to another has been cancelled because an authority from the Audit Officer specifying the leave-salary permissible is necessary

APPENDICES [No. 10

in all cases. A clause has also been added at the end of this paragraph to the effect that, when the Government servant desires to change the office of payment, a fresh leave-salary certificate must be obtained from the Audit Officer within whose jurisdiction his last pay was drawn. This clause is taken from Article 887. As the instructions apply also to cases of Government servants on leave in India, they have been included in this paragraph.

- 9 Paragraph 9 This reproduces the orders in Article 864, Civil Service Regulations
- 10 Paragraph 10 This provides for the procedure laid down in Fundamental Rule 91, by which Government servants who reside in Asia during their leave have to draw their leave-salary in India. The note under the paragraph is an audit requirement
- 11 Paragraph 11 is intended to preserve the special procedure obtaining at present in these departments which is safeguarded by Article 866, Civil Service Regulations
- 12 Paragraph 12 A last-pay certificate has to be produced by a Government servant who has to draw arrears of leave-salary or pay due under Article 41, Civil Account Code, Volume I (8th edition)
- 13 Paragraph 13 This reproduces the orders in Article 775-A, Civil Account Code, Volume II (7th edition)
- This reproduces part of the orders in Article 874 14 Paragraph 14 Civil Service Regulations, relating to the issue of a leave-salary certificate to those who desire to draw their leave-salary at the Home treasury, and part of the orders in Article 888, Civil Service Regulations, relating to the issue of a Colonial warrant, with this difference that the Audit Officer who audits the pay of a Government servant is required to issue the Colonial leave-saiary warrant in the place of Audit Officers at the ports of embarkation in India or Burma who were formerly issuing the wairants as stated in Article 888, Civil Service Regulations The issue of a separate leave-salary certificate by the Audit Officer concerned as specified in Article 881 becomes unnecessary, as he will himself issue a Colonial leave-salary warrant. A clause has been added to this rule providing for cases in which a gazetted Government servant may wish to draw his leave-salary in India during the first four months of leave on average pay In these cases a leave-salary certificate, such as is ordinarily issued to a Government servant, drawing his leave-salary in India, should be issued to cover the period during which the Government servant wishes to draw his leave-salary in India This rule does not provide for non-gazetted Government servants proceeding on leave out of India, as their cases are covered by paragraph 6 of these Instructions
- 15 Paragraph 15 This provides for the orders in Article 880, Civil Service Regulations The note under the article is taken from Article 775, Civil Account Code, Volume II (7th edition)
- 16 Paragraph 16 Reproduces part of the orders in Aiticle 881 which are not included in paragraph 14, as well as part of the orders in Article 889 The existing orders require that the Government servant going on leave out of India should be paid up to the day before he leaves India

APPENDICES

These orders apply to the case of Government servants who proceed on leave to which no privilege leave is prefixed. When the Government servant goes on privilege leave or on combined leave, he is allowed to draw his allowances in England from the commencement of such leave. In future it would be simpler to have the leave-salary due from the commencement of the leave paid in England, if the Government servant so chooses, in all cases, subject to the conditions in Fundamental Rule 91. This rule accordingly provides that the Government servant should be paid up to the date of his relief

17 Paragraph 17 This reproduces the orders in Article 882, except that it is provided that the Government servant should be paid up to the date of his relief and not up to the date of his sailing

18 Paragraph 18 This is taken from Articles 872 and 873, Civil Service

Regulations

19 Paragraph 19 This is in accordance with Article 904, Civil Service Regulations

20 Paragraph 20 This reproduces the orders in Article 883, Civil Service Regulations As, under Fundamental Rule 68, the leave of a Government servant commences on the day on which transfer of charge is effected and does not depend upon the date of departure of the vessel in which the Government servant sails, the report of actual sailing is not required in the case of those to whom the rules in sections I to V of Chapter X of the Fundamental Rules are applicable

21 Paragraph 21 This provides for the orders in Article 884 and part of Article 889 "The High Commissioner for India" has been substituted for the "Secretary of State" and "India Office" as the former officer is now

making payments of leave-salary in England

22 Paragraph 22 This reproduces the orders in Article 885, Civil Service Regulations

23 Paragraph 23 This provides for the orders in Article 898 (a), Civil

Service Regulations

24 Paragraph 24 This is taken from the latter part of Article 300, Civil Service Regulations

25 Paragraph 25 This is a reproduction of the orders in Article 877, Civil Service Regulations

26 Paragraph 26 This is a part of the orders in Article 889, Civil Service Regulations

27 Paragraph 27 This is taken from Articles 886 and 890, Civil Service Regulations

- 28 Paragraph 28 is taken from Article 876, Civil Service Regulations
- 29 Paragraphs 29 to 32 are taken from Articles 855, 857 (b) and (c) and 611, Civil Service Regulations
 - 30 Paragraph 33 This is a necessary record for purposes of reference
- 31 Paragraphs 34 and 35 These rules indicate the form in which records of service of non-gazetted Government servants should be maintained and the procedure that should be followed in maintaining them.

- 29 Permission to return will not be granted to a Government servant to whom no leave-salary certificate or Colonial leave-salary warrant has been issued, until he produces a certificate of leave

Last pay

30 Before returning to duty, a Government servant on leave in Europe must obtain a last-pay certificate from the High Commissioner and bring it with him to India and not leave it with his Home Agent, as it will be required for presentation to the Audit Officer, if it is desired to draw on arrival in India the advance which is permissible under paragraph 35. In such an event the English last pay certificate should be with the Government servant, as it facilitates his identification at the Audit Office and the advance has to be recorded on the certificate. A last-pay certificate will not be granted to a Government servant to whom no leave-salary certificate has been issued unless he produces a certificate of leave. A Government servant who has drawn his leave-salary on a wariant must, on return to India, deliver to the Audit Officer, by whom the pay of the post which he will join will be audited, his copy of the warrant which will serve as a last-pay certificate.

Procedure on return to duty

- 31 A gazetted Government servant must report his return to duty to the Government under which he is serving A Chaplain must report his return to the Bishop of his Diocese also
- 32 A Government servant is not entitled on his return from leave to resume, as a matter of course, the particular post he vacated before his departure on leave, even though that post may be his substantive post, he must report his return to duty and await orders
- Note —Members of the Engineer or Upper SubordinatoEstablishment of the Public Works Department should, on arrival at the port of debarkation, report themselves personally to the Secretary in the Public Works Department of Bengal, Midras, Bombay or Burma as the ease may be, and ask for orders If they roturn, via Karachi, they should apply to the office of the Executive Engineer, Karachi Canals, for orders
- 33 A Government servant may return to India by any port and his leave ends on the day preceding that on which the vessel arrives at the port where he last quits it—If, however, the leave from which he returns is of four months' duration or less, his leave ends on the day preceding that on which

he takes charge of his duties, unless he takes charge in the afternoon, when the leave terminates on and includes that day

- 34 On return to duty, the last-pay certificate obtained from the High Commissioner should be exchanged for a last-pay certificate which the Audit office of the province to which he has been posted will furnish addressed to the treasury or office at which, after his return, the Government servant intends to draw his pay and allowances
- 35 A Government servant returning from leave out of India may be Advances granted an advance of his leave-salary for the unexpired portion of his leave subject to a maximum of 35 days from the date of embarkation for India On arrival in India an advance may, if he desires it, be paid to a Government servant by or under the order of the Audit office of the province in which the advance is sought to be drawn under Article 159 (b) of the Civil Account Code, Volume I

To a Chaplain appointed before the 7th June 1923, who is proceeding on leave to England, an advance of three months' leave-salary may be made, provided that no part of the leave is on average pay. Such an advance is not recoverable in the event of the Chaplain's death

To a Military Officer subject to the Military Furlough Regulations of 1868 proceeding on furlough (not combined with privilege leave) to England, an advance of furlough pay may, if he desires it, be made for three months from the date of embarkation Payments in continuation will be made in England on the expiration of four months from that date

Substitute the following for paragraph 36.

- 36 A Government servant on leave may not take any service or accept any employment without obtaining the requisite sanction in accordance with Fundamental Rule 69

Landing College Control of the Medical Board in order that the Board may advise them as to the Board to take regarding such diseases

Arrangements have been made for the diagnosis and preliminary treatment of the diseases, and for the admission of officers, when necessary, as in patients at the Hospital for Tropical Diseases, Endsleigh Gardens, N W 1 A report is furnished to officers by the Hospital, which they can take with them to their own Medical adviser to enable him to carry out the treatment suggested. The cost of the examination and preliminary treatment at the

Hospital, and also that of the accommodation supplied to officers admitted as in-patients, is defrayed by the India Office. The Hospital is, however, permitted to charge a special extra fee to senior officers of the Civil Department who on admission as in-patients, are, at their own request given special accommodation. This extra fee is payable by the officer himself, the India Office paying that portion only of the total charge which represents the cost of ordinary, as distinct from special, accommodation

To secure these advantages, however, a recommendation to the Hospital for Tropical Diseases by the Medical Board is necessary, and, therefore, Government Servants who wish to avail themselves of this arrangement should apply to appear before the Medical Board of the India Office as soon as possible after arrival

APPENDIX 10-A

Rules for regulating the exhibition of recoveries of expenditure in Government Accounts [issued by the Auditor General in exercise of powers conferred upon him by Rule 20 of the rules framed by the Secretary of State in Council under Section 96D(1) of the Government of India Act].

- 1 These rules shall come into force with effect from the accounts for 1928-29
- 2 The term "recoveries" as used in these rules should be understood in the sense of repayments by another Government Department or an outside body or person of expenditure initially borne by a Government Department and recorded as such in its accounts
- 3 Recoveries from private persons or bodies (including local funds, Indian States and Governments outside India) should, as a general rule, be treated as revenue and not as deduction from expenditure.

Exceptions.

- (i) When a Government undertakes a service merely as an agent of a private body, so that the entire cost of the service is recovered from that body, the net cost to Government being ml, the recoveres may be taken in reduction of expenditure
- (11) Recoveries of expenditure on works in progress and transactions of stock and other suspense accounts
 - The technical estimates take eognisance of all anticipated receipts from sale proceeds of materials, plants, etc, received from the old structure, while the receipts under "Stock and Suspense" are by their very nature inseparable from the expenditure recorded under the main head. It is, therefore, proper that recoveries falling under these two eategories should continue to be treated as reduction of gross expenditure.
- 4 As between two or more Governments as defined in Article 33-A of the Civil Account Code
 - (a) If the recoveries represent no more than debits to another Government of expenditure which was so debitable from the moment it was sanctioned, they should not be treated as revenue of the Government effecting the recoveries but as deduction from expenditure
 - (b) In the ease of joint establishments, where the expenditure is not shared by two or more Governments ab initio but is incurred by one of the Governments and partially repaid by the others, the repayment, if made while the accounts of the year are still open, should be treated as deduction from expenditure.
 - (c) Recoveries of the classes falling under (a) and (b), if effected after the closing of accounts of the year in which the expenditure was incurred, should be treated as revenue.

No. 10-A]

APPENDICES

- (d) Recoveries on account of commuted value of pensions effected from other Governments should be treated as deductions from expenditure, See footnote (219-C) to Appendix 7
- (e) All other recoveries should be credited as revenue of the recovering Government, whenever they are received
- 5 As between different departments of the same Government, the recoveries should be treated as deduction from the gross expenditure, except such recoveries as are made by a Commercial Department, which should be treated as receipts of that department

Note —The term "recoveries by a Commercial Department" for the purpose of this rule is intended to apply to recoveries in respect of services rendered to other departments in pursuance of the proper functions for which the Department is constituted, that is to say, in the ease of the Indian Posts and Telegraphs Department, recoveries will be treated as receipts only when they are made in respect of Postal, Telegraph or Telephone services rendered to the other departments. Where, however, a Commercial Department acts as an agent of another department for the discharge of functions not germane to the essential purpose of the Department, the recoveries should be taken in reduction of expenditure

- 6 Notwithstanding anything to the contrary that may be provided by or under these rules, receipts and recoveries on Capital Account in so far as they represent recoveries of expenditure previously debited to a capital major head should be taken in reduction of expenditure under the major head concerned, except where, under the rules of allocation applicable to a particular department, such receipts have to be taken to revenue
- 7. In case of doubt or dispute, the authority to decide whether any particular recovery is classifiable as revenue or as deduction from expenditure under the above rules rests with the Auditor General

APPENDIX 11

[See Art 299.]

Special instructions for audit of pay bills of establishments on time-scale of pay.

- NR—(a) It has been found by experience that the use of certain modified forms facilitates the application of the method of audit laid down in the following instructions. Model forms were circulated with Auditor General's letter No 972 Admn/1160—20, dated the 2nd June 1922 The special form of establish ment pay bill with increment certificate and absentee statement is not included in this appendix
- (b) It is not intended that the procedure outlined in the following rules should be followed literally in every minute detail and Accountants General may at their discretion vary the minor details according to circumstances
- (c) An Accountant General may, at his discretion, depart from the instructions contained in this appendix in respect of any particular large establishment, if, in his opinion the conditions obtaining in respect of that establishment are such as to render it very difficult to apply these instructions and if he is convinced that a nominal audit will be considerably more efficient
- 1 On the introduction of a time-scale of pay in an establishment, it is of vital importance to scrutinize the calculations of the initial rate of pay and the date of next increment fixed for each Government servant borne on that On it depends the correctness of the pay to be drawn year establishment after year until the Government servant is stopped at an efficiency bar or reaches the maximum of the time-scale In such cases the Head of the office should be required to submit to the Audit office a detailed statement showing the calculation of initial pay of each member of the establishment in Form A Where the initial rates of pay are dependent to any extent on service, they can be checked only with the service books which are with the Head This work can, therefore, be best done at local inspections, but of the office when such inspections are not possible within a reasonable time after the date of the introduction of the time-scale, the service books should be required to be sent to the Audit office for the purpose of the necessary check case the whole or a large percentage of the initial rates and the date of next increment must be checked
- 2 For the purposes of audit, establishments on time-scales of pay fall under two groups, viz
 - (i) those for which an establishment return (C A C Form 3) is received in the Audit office, and
 - (n) those for which no such return is received in the Audit office
- 3 For all establishments for which no annual establishment return is received, the audit will be by numbers only and no amounts at all will be entered in the Audit Register
- (a) When a sanctioned cadre contains its own leave reserve, the number to be entered is the sum of those drawing duty-pay and of those drawing leave-salary
- (b) Where officiating arrangements in leave vacancies are permissible, then it will be necessary to record, separately, the number (i) drawing substantive pay, (ii) on leave, and (iii) drawing officiating pay When the audit is M7AGO

APPENDICES.

not conducted in the provincial audit form, these can be recorded under one another with the letters S, L, O, respectively, against them, thus

118		S	6 25
Vr.	•	${f L}$	2 29
5	`	0	1 21

The audit check will consist in seeing that S+L and S+O are each within the sanctioned scale Alternatively Form 86 may be used for the Audit Register

In the case of establishments referred to in this paragraph, the sums held over or refunded need not be noted in the Audit Register. The record of audit of supplementary claims should be made in the original monthly bill from which the claim was either omitted or in which it was shown as held over

Note—In provinces where large temporary or non-pensionable establishments are employed from year to year on time scales of pay for which no annual establishment return is usually received, the Accountant General may at his discretion conduct the audit both against number as well as against permissible expenditure as laid down in rule 4

- 4 For all establishments for which an annual establishment return is received the audit will be by numbers as well as against permissible expenditure. As regards the audit by numbers, the instructions in paragraph 3 apply subject to the further instructions in paragraphs 7 and 8. The audit against the permissible expenditure will be conducted in the manner laid down in paragraphs 5 to 13.
- 5 The first monthly permissible expenditure on the introduction of a time-scale will be worked out on a fly leaf of the Audit Register in Form 88 annexed, which should be compiled from the statement of initial pay, Form A. For this purpose all men on duty temporarily outside the cadre or on leave should be counted as if on duty, the pay of temporary men officiating in permanent vacancies should be added, and for all unfilled vacancies there should be added the minimum pay of the post. Corrections will be made during the course of the year in the fly leaf with respect to the permissible monthly outlay only in regard to permanent factors, such as increments, retirements and deaths and consequent new appointments, and increases and decreases of scale. The fly leaf will contain the names of all the permanent men in the cadre with their present rates of pay, as well as columns for showing current permanent changes in monthly permissible expenditure, the total only being carried to the Audit Register. These permanent changes will relate chiefly to increments, deaths, etc., and two columns, A and B, are provided for the purpose. The columns marked B will contain broken amounts for a current month noted from current bills. The columns marked A will contain the full monthly amounts drawable from the 1st of the month following that in which the event occurs. Thus the expenditure for broken periods of a month will be kept separate from the monthly scale, e.g., for an increment of Rs. 4 falling due on the 16th April, an entry of Rs. 2 will appear in the B column for April, and Rs. 4 in the A column for May. If an event falls due

[No. 11.

on the 1st of the month, an entry in column A of the current month alone will be sufficient. In determining the monthly permissible expenditure, only column A will be cumulative—thus for the months of April and May

	Aprıl	May
	A B	A B
Total	+16 +12	+18 +14 -
Last month's figures	2,579	2,595
Fresh total	2,595	2,613
Form B	12	14
Monthly expenditure	2,607	2,627

The names of the men holding permanent posts will be entered in order of seniority as measured by substantive pay drawn and below these will be shown the posts left vacant

Besides alterations due to increments, the columns will in the same way show all other permanent alterations due to deaths, retirements, etc., and thus negative alterations will sometimes arise. For this purpose, substantive arrangements made under Rule 13 of the Fundamental Rules in place of officers whose hen has been suspended will be considered as permanent. No corrections will be made in permissible expenditure with regard to leave and officiating arrangements, except that the pay of temporary men officiating in permanent vacancies will be added to the permissible expenditure as stated in the beginning of this paragraph

The fly leaf for April of each year should be checked with the annual establishment return which should include the names of all men holding temporary posts on the date to which it relates, indicating which of these are officiating in temporary and which in permanent vacancies

Some clerical labour in preparing the fly leaf may be saved by utilising the duplicate copy of the annual establishment return

Note—In regard to increments, the permissible expenditure should not be corrected until the increment certificate is received. When that certificate is received after the month in which it falls due, the permissible expenditure previously entered for the month or months affected will require correction

If, however, the increment falls due when a Government servant is on leave and the increment certificate is received during the period of leave, the numedrate action should be confined to the entry of a note on the fly leaf, as the increased rate of pay will not be drawn until the Government servant returns from leave On the strength of this note the permissible expenditure should be increased as soon as the Government servant returns to duty

6 In the case of large establishments, however, it may be found inconvenient to adopt the fly leaf in Form 88 In such cases, as well as in any other case, the Accountant General may at his discretion adopt the simplified by leaf in Form 89

In Form 89 the net add or deduct entires on account of easualties should be filled up from the pay bill, and the total addition on account of increments from the increment equificate. The auditor should also keep the duplicate copy of the annual establishment return ready for reference in checking increments and making such notes as may be necessary. When a change does not take effect from the first of the month the bill for which is under audit, the amount relating to that month should be posted in column B and the amount for the whole month should be recorded in column A of the following month

7 In the audit of a bill it will first of all be necessary to check all the items in the bill corresponding to items in the absentee statement, and at this stage the admissibility of the leave-salary and officiating pay of the men involved will come under audit Ordinarily, with a time-scale, there will be only one officiating arrangement against each vacancy. If an establishment contains its own leave reserve no question of extra eost can arise but there may be savings If, however, a cadre does not include its own leave reserve, then extra cost and savings will possibly both arise. For instance, any difference between a man's leave-salary and his normal duty-pay will be a saving, while the pay of men officiating in leave vacancies will always be extra The savings and extra cost will be worked out and totalled by the Audit office in special columns in the absentee statement and the totals posted in the audit eage in the course of audit. The auditor will next audit first against the fly leaf in Form 88 (or against the annual establishment return if Form 89 is used) and then in the bill itself all items corresponding to the names entered in the incicinent equificate, using the blank column in the bill form for noting extra eost and savings. Then the remaining items in the bill against which there is something in the remarks column should be audited and any changes affecting the fly leaf meorporated therein. None of the remaining items in the bill need be cheeked. The total of the bill will be entered in black in the Audit Register. There will also be entered in red ink any sums held over (H O) for future payment. It will be convenient to record a number against the held-over amounts The gross total of extra eost (E C) and savings (S) will also be entered in the Audit Register in red and black, respectively, from the absentee statement The number to be entered in the Audit Register will be

- (a) when a cadie does not contain its own leave reserve, the sum of the number of men drawing duty-pay (substantive or officiating),
- (b) if it does contain its own leave reserve, then the sum of the number of men drawing duty-pay and of those drawing leave-salary

This number will be noted in black ink in brackets between the voucher number and the amount. In each case the total amount of the bill will be entered, although in the former case the men on leave are omitted as regards number. It will be necessary to require officers to report in their absentee statement the number of permanent posts left unfilled. The pay for these

APPENDICES

posts at the minimum rate should be included in the amount of savings worked out and the number shown in brackets in red ink with S against it

- Note 1 —When the increment claimed operates to earry a Government servant over an efficiency bar it should be supported by a declaration from the authority empowered to allow the increment that it has satisfied itself that the Government servant in question is fit to pass the efficiency bar
- Note 2 —To facilitate the audit of leave salary of non gazetted Government servants, drawing officers should submit with their establishment pay bills a statement, duly attested by them, showing the calculation by which the amounts drawn in the bills on account of leave salary have been deduced. An arithmetical check of those statements, in the Audit Office is ordinarily sufficient, reference to previous pay bills or other connected documents being made in doubtful cases only. The rate of leave salary, as shown in the statement, should be noted in the audit register and the leave salary subsequently drawn should be audited with reference to this entry.
- 8 The audit check will be to see that the total of black numbers does not exceed the sanctioned scale, and that the total of the black amounts (i e, the total of the bill and savings) plus the amount held over, less the extra cost which is recorded in red ink, does not exceed the monthly permissible expenditure
- 9 It will be noticed from the instructions in paragraph 7 that the amount held over for future payment should be noted in the Audit Register so that subsequent drawals of such amounts may be recorded against these notes. The same procedure will apply to amounts refunded
- 10 Once a year, a nominal test check for rate of pay only drawn in one month's bill, selected by the Deputy Accountant General, should be undertaken. Any errors found in this month's bill must be traced through the bills of the year or years concerned
- 11 In cases where only one name affecting a particular cadre appears in one bill, $e\,g$, Sub-Assistant Surgeons who draw their pay on separate bills, Inspectors of Excise, etc., the simplest audit amounts practically to a nominal audit and should be conducted in an Audit Register in Form 87

Alterations of pay and allowances will be shown in column 2 as they arise Under the audit month the initials of the auditor are sufficient if the payment is a regular one. If it is a broken payment brief notes should be recorded

- 12 In the case of large establishment, bills for which are drawn from more than one centre, arrangements should be made to obtain consolidated establishment lists and absentee statements for facility of audit under this scheme
- 13 As, under this scheme, the accrual of increments will be audited either against a fly leaf or against the duplicate copy of the annua establishment return, a local check of increments, after the check of initial pay, which is most important, will not be necessary

- (iv) the balance at the credit of the officer and of each member of his family,
- (v) any variation in the balance required under Regulation 11

Whenever a certificate in Form 91 or Form 92 or Form 94 is issued, the number and date of the certificate should be entered in the "Remarks" column

NOTE I —Regulation 11 in Schedulc IV of the Superior Civil Services Rules should be followed in recalculating the credits in the Personal Passage Accounts of officers and their families on account of increase or decrease in the passage rates

In the ease of an officer who purchased a return ticket by the Peninsular and Oriental Steam Navigation Company or by other Steamship Companies prior to the date of reduction of the P and O passage rates, but who used the return half after that date, the adjustment to be made in his passage account will be as follows —

- (a) If the return ticket is by Peninsular and Oriental 1st Class B, by the all sea route, no adjustment in the passage account of the officer is necessary. The refund will not affect the balance at credit in the Passage Account. It would suffice if a note of refund of the amount made by the Steamship Company is kept in the Remarks Column of the Passage Account.
- (b) In all cases not covered by clause (a) the adjustment in the passage account of the officer should be made in the manner indicated below

 Note 2 —The personal passage accounts of all officers of the Indian Audit and Accounts Service who are eligible for the passage concessions, with the exception of those on foreign service whose pension contributions are not watched by the Accountant General, Central Revenues, or such of those officers as are employed under the Provincial Governments, should be maintained in the office of the Accountant General, Central Revenues

Note 3 —All the Home Lines carrying passengers to and from India at present quote their fares in sterling

In the few cases in which the fares are quoted in rupses without any reference to sterling, the rupee fares will be converted into sterling at the same rate as is adopted in converting sterling fares into rupees under paragraph 5 below

Note 4 —Credit in respect of passage for children under 12 years of age should be at adult rate

The value credited to the Personal Passage Account of an officer for his child can be utilized to meet the cost or part of the cost of more than one passage actually engaged for that child

Note 5—A Personal Passage Account should be credited with the cost of the appropriate number of return passages by P and O 1st class B at the rate for return passages determined with references to Regulation 2(c)—In normal circumstances, when the return journey is expected to be performed within the period of validity of a return ticket the maximum admissible for expenditure by officers and their families on a journey from India to the United Kingdom and back should be restricted to the cost of a return P and O 1st class B passage by sea between Bombay and London, whether the passage is performed on a return ticket or on two single tickets—Special cases in which the purchase of a return ticket is clearly impracticable will be considered on their merits, and a certificate authorising expenditure up to the cost of a single P and O 1st class B passage by sea between Bombay and London on the onward journey will be issued where the facts are held to justify this course—The authority competent to decide whether a particular case is special or not is the Audit Officer who issues the passage certificate

Note 6—Under the Passage Regulations an officer is free to choose the line of steamers by which he will travel and is not debarred from booking a 2nd class passage or a passage in any lower class. The saving arcuing from the exercise of either of these options will remain at credit in the Personal Passage Account of the person or persons concerned and can be used towards meeting the cost or part of the cost of additional passage or passages engaged even in excess of the number of P and O 1st class B passages whose value has been credited to the Personal Passage Account concerned

- 2 As the accounts are purely personal, the credit outstanding in the account of each person can only be utilised for the benefit of that person Whenever any member of an officer's family dies or ceases to be eligible for the benefits under the Passage Regulations, his or her account should be closed by noting the word "Closed" and the reason therefor shown in Form 90 The balance, if any, in the account of a member of an officer's family when it is closed may not be transferred to the account of the officer or of any other member of his family. When the officer himself ceases to be eligible for the passage concessions, the whole set of accounts of that officer and of his family should also be closed after due time has been given for advantage to be taken of the benefit permissible under Regulations 7 and 12. Any credit outstanding in the account lapses
- 3 Procedure for engaging passages The application for passage or passages will be made by the officer in Form Civil Account Code 2 B If the officer is entitled (having due regard to the balance in the account of the person for whom the passage is claimed and to the provisions of Regulation 8) to the cost of the passages applied for, an authority in Form 91 will be issued to the officer Form 91 will be printed in two foils, of which one should be kept as an office copy. The forms will be machine-numbered serially for each year and bound in books of convenient size. As these forms furnish authorities for payment, they should be carefully kept under lock and key in charge of the Superintendent, Gazetted Audit Department.

Note 1 —Return passages may be applied for and authorised in the manner indicated above except in eases in which an officer is proceeding on leave, at the end of which he is due to retire or declares his intention to do so, when he is entitled to single passages only

- 14 The refunds, if any, effected in India under the last sub-paragraph of rule 11 above, and similar refunds appearing in the Remittance Account will be posted as minus entries in the Register of Sanctions and the Personal Passage Account, and will be treated as minus expenditure under the head to which the cost of passage was debited (see rule 21 below), unless they relate to passages for which payment was made in previous years, in which case the recoveries should be adjusted as receipts. In the case of such refunds appearing through the Remittance Account, the conversion into rupees will be effected at the rate of exchange which was adopted in the conversion of the original transaction in respect of which the refund is made, the gain or loss by exchange being adjusted as in paragraph 9 above

Note —For purposes of the adjustment of refunds, the amount due to Government, after deduction of the amount, if any, paid by an officer himself, should be taken into account

The necessary minus entries should also be made in the Register of Sanctions and Payments and the Personal Passage Account of the individual officer

14 B If an officer, who proceeded on leave out of India and availed himself of passages under the Passage Regulations is, on the expiry of his

leave, posted to a station other than the station from which he proceeded on leave, and if the cost or a portion of the cost of any sea journey between his old and new stations performed by himself and/or a member of his family was included in the amounts debited to the respective Personal Passage Accounts, such cost (limited to cost at 1st Class B P O rates) or portion thereof will be deducted from the claim for travelling expenses, if admissible under the ordinary travelling allowance rules applicable to him, and credited to the head to which the cost of the original passages was debited. The new Audit Officer will enter such authorities in his Register of Sanctions and Payments, indicating in the remarks column the name of the Audit Officer who actually issued the authority. No further payments will be made or adjusted against such authorities by the Audit Officer who actually issued the authority. These amounts will be eredited to the receipt head appertaining to the department which lent the officer to the foreign employer, or where there is no such receipt head, to the minor head 'Collection of payments for services rendered' under the major head 'XXXV Miscellaneous'

On the analogy of Article, 192. And t Code, the contributions may be eredited to the Government under whom the Government servant is permanently employed at the time of his transfer to foreign service

The calculation of the total amount payable by the borrowing Government may be made at the end of the service or at the end of the financial year, whichever is earlier, and the adjustment may then be made in one lump sum. The cost of all passages taken by the officer will continue to be borne by the lending Government.

Note 1 —The contributions payable should be recorded in the books of the borrowing Government under the head "Contributions for passages of officers transferred to or from other Governments, Departments etc.," to be opened under the primary unit "Grants-in aid contributions, etc.," relating to the minor or

In the case of an officer who was in service on 1st April 1924, the period of service rendered before that date will be neglected for the purpose of the above calculation

Note -The expression "period of service" in this clause includes any period of service under another Government in respect of which contribution has been received

- (b) That Government will be credited with an amount representing the cost of passages already taken by the officer while serving under it
- If (a) exceeds (b), the difference will be credited by the original Government to the second Government, and, conversely, if (b) exceeds (a), the difference will be debited by the original Government

NOTE I —The amount of difference should be adjusted under the detailed head "Contributions for passages of officers transferred to or from other Governments," vide clause (2) above, in the books of the paying Government, and in the books of the receiving Government, it should be adjusted under the receipt head apportaining to the department to which the officer belonged or will belong, as the case may be, or where there is no such receipt head under the minor head Collection of payments for services rendered 'under the major head "XXXV—Miscellaneous"

APPENDIX 17

(See Art 192-F)

Rules for the Exhibition of losses in the Government Accounts and in the Appropriation Accounts.

SECTION I RULES FOR THE GUIDANCE OF THE EXECUTIVE OFFICERS

I Budgeting Provision for losses should not ordinarily be made in the budget. If, however, the nature of the work of a department is such that some losses must be regarded as inevitable each year, provision may be made, with the special sanction of the Finance Department in each case

II Report of losses - With the exceptions noted below, any defalcation or loss of public money, departmental revenue or receipts, stamps, opium, stores, or other property, discovered in a Government treasury or other office or department, which is under the audit of the Accountant General, should be immediately reported to the Accountant General, even when such loss has been made good by the person responsible for it. It will usually be sufficient if the officer reporting the defalcation or loss to higher authority sends to the Accountant General either a copy of his report or such relevant extracts from it as are sufficient to explain the exact nature of the defalcation or loss and the circumstances which made it possible. When the matter has been fully investigated, a further and complete report should be submitted of the nature and extent of the loss, showing the errors or neglect of rules by which such loss was rendered possible, and the prospects of effecting a recovery. The submission of such report does not debar the local authorities from taking any further action which may be deemed necessary.

Exception 1—In the case of Customs Revenue, (a) mistakes in assessments which are discovered too late to permit of a supplementary claim being made and (b) under-assessments which are due to the interpretation of the law by the local Customs authority being overruled by higher authority more than three months after the assessment was made need not be reported to the Audit Officer Such cases should, however, be examined by the Audit Officer at the time of audit

For the first sentence of Rule III in Section I as revised by Correction Slip No 13, dated the 1st October 1935, substitute the following

"Heads of Departments should submit annually to the Principal Auditors concerned statements showing the remissions of revenue and abandonments of claims to revenue sanctioned during the preceding year by the competent authorities in exercise of the discretionary powers vested in them otherwise than by law or rule having the force of law".

[Audit Code, Vol II, 1st Edn (2nd Rep), No 118, dated the 1st July 1936]

should be classified broadly with reference to the grounds on which they were sanctioned, and a total figure should be given for each class. A brief explanation of the circumstances leading to the remission should be added in the case of each class.

Note 1 —A local Government may make rules defining remissions and abandonments of revenue for the purpose of this rule, and may, after consultation with its Public Accounts Committee, fix monetary limits below which individual remissions need not be included in the statements

Note 2 —Where the administrative year does not coincide with the financial year, the figures of the former may, if this prove convenient to the departmental authorities, be given in the statements

Note 3 —This rule does not apply to Railways and Indian Posts and Telegraphs Departments, but see also Note to Rule III of Section II B

SECTION II RULES FOR THE GUIDANCE OF THE ACCOUNTING AND AUDIT OFFICERS

A Initial Accounts

- I Receipts (a) If a claim be relinquished it is not to be recorded on the expenditure side as a specific loss
- (b) If however, money due to Government has actually reached a Government servant and is then embezzled, stolen or lost, even though it may not have reached the treasury and thus have passed into the Government account, it should be brought into the Government account as a receipt and then shewn on the expenditure side by record under a separate head as a loss
- Note 1 —Where losses of public money are wholly or partially met by non issue of pay or pension and the accounting department authorisedly applies the unissued amount to meet the public claim, the resultant balance of the claim should alone be treated as a loss, the emoluments due being charged to the pertinent head of account as if they had been drawn and used by the Government servant concerned in paying the public claim
- Note 2 The term 'Government servant' used in this rule includes persons who, though not technically borne on a regular Government establishment are duly anthorised to receive money on behalf of Government
- II Buildings lands, stores and equipment Losses or deficiencies need not be recorded under a separate head in the accounts, though they should be written off any value or commercial account that may be maintained. If any transactions under these categories are recorded under a suspense head in the Government accounts, losses or deficiencies relating thereto must be written off the suspense heads also
- III Cash in hand, whether in treasures or as imprest with Government servants. All losses or deficiencies should be recorded under separate heads in the accounts.
 - Note 1 —The acceptance of counterfeit coins or notes is regarded as a loss of cash
- Note 2 —Any recovery made in the course of the year in which the losses are brought to account is to be shewn by deduction from the head under which tho loss is iccorded. Any recovery made after the accounts of the year are closed shall be shown as an item of receipt.
- IV Irregular or unusual payments should be recorded in the account with general reference to the ordinary rules of classification according to the nature of the expenditure for example, an overpayment of pay will be debited to the head "Pay" Similarly, an excess payment for bricks manufactured will be debited to the work for which the bricks are used. It is only when

special heads exist in the accounts for recording such charges as compensations for damages, irrecoverable temporary loans written off and the like, that unusual or extraordinary payments will be separately recorded

V Where losses are an inevitable feature of the working of a particular department, the major head of account under which the expenditure of that department is recorded should contain separate descriptive heads under which such losses may be recorded

Forwarded to the for early disposal and return within a fortnight of its receipt or the eause of any delay explained by docket (see foot-note below). As there is, however, nothing really gained by the return of the statement either the same day or a day or two after receipt with such replies as 'Extract sent to D S P, etc," full advantage should be taken of the maximum number of days allowed to seeure final replies from all the officers in the station, in order to return the statement in as complete a form as possible, so that the objections may be settled without the necessity of a further reference. The plan of sending 'Extracts' should be adopted only in the case of Government servants in Camp, or in distant takis, whose replies having to be given there, will delay the return of the statement. Even in these, as in all other cases, every effort should be made to get break the "extracts" in time to be attrelled to, or to be forwarded soon after the despatch of, the statement, and for this purpose reminder should be sent on the third day, if necessary, to secure them
